Project eSwimming promotes the use of swimming as therapy and supports disadvantaged people on local, regional and transnational level.

Would you like to swim? To enjoy the feeling of moving in water?
But you don't think that you could manage to do so, because of one reason or another?
This website is for you!

We also want to reach out to the many people who could provide this help – people who can swim and who would like to help others take their first steps in the water. You can make a difference! For more information visit us at:
